**PLAINTIFFS' MOTION TO RECONSIDER IN LIMINE ORDER, OR  
ALTERNATIVELY TO CONTINUE DAUBERT HEARING AS TO J. BERTON FISHER**

Plaintiffs, Don Quarles and Quarles Acres, LLC, ("Quarles") submit this *Motion to Reconsider the Court's In Limine Order (Dkt.# 402), or alternatively, to Continue the Daubert Hearing as to Expert J. Berton Fisher ("Fisher")*, and in support thereof hereby state:

In light of the recent testimony at the June 18, 2007 Daubert Hearing, and this Court's request for additional evidence, Quarles hereby submits visual evidence of the hydrological flow of surface and groundwater on Quarles' property onto Lake Skiatook to which Expert Fisher can describe in detailed testimony to this Court at the July 27, 2007 Motion and Daubert Hearing.  
*(Exhibit A.)*

Fisher's testimony at the June 18, 2007 Daubert Hearing, and his previous exhaustive opinions in his expert reports, that oil field wastes and pollutants on Plaintiffs' property caused surface and subsurface soil and water damage can be illustrated by this visual evidence. Fisher is expected to testify that the flow of surface water on Quarles' property from areas of salt scarring, soil salinization, brine and petroleum contamination reaches Lake Skiatook. Lake Skiatook is down-gradient from Quarles' property. Also down-gradient from Quarles' property, the United States Government is conducting environmental testing on the soil and water of Osage County. The United States Geological Survey ("USGS") (and other environmental scientists) is involved in a multidisciplinary investigation named Osage Skiatook Petroleum Environmental Research ("OSPER") at two named sites "A" and "B". Soil and water sampling from those sites to date show that impacts of produced water and associated hydrocarbons on soil, surface and groundwater at both sites and surrounding areas, are widespread and pervasive.<sup>1</sup> All wells show some degree of contamination from produced water and/or petroleum or its degradation products.<sup>2</sup> This illustrative testimony by Expert Fisher will enable this Court to reconsider its previous ruling excluding Fisher's testimony on damage to surface water and subsurface water on Quarles' property from current and historic oil production facilities.

WHEREFORE, Quarles respectfully requests this Court to reconsider its In Limine Order, or alternatively, to continue the Daubert Hearing of Expert J. Berton Fisher to July 27, 2007.
